

Advanced JAM and Middle School Competing Teams!

The Florida Jammers are inviting you to participate in our M&M Mini candy fundraiser! This is an easy, yet FUN way to earn money towards your uniform, competition, and recital fees!

Here's how it works...

Step One – Purchase M& M candy tubes from Tiffany or Nicole before or after class. The cost of each tube is \$1.00.

Step Two - Write your first and last name on the labels of your tubes.

Step Three - Pass out the tubes to your friends and family, inviting them to fill the tubes with spare change and dollars once they are done eating the treat. All that spare change can really add up! You will make your \$1.00 back and THEN some!

Step Four – Collect the tubes by the return date - Make sure you keep track of who has your M&M tubes so you can remember to collect them all! Once collected, the money in the tubes is YOURS to keep! You do not need to bring any of the tubes back to class (although we'd love to know how much you earned!)

****Unlike last year, the Florida Jammers will NOT be collecting all of the change and applying it to your envelopes. Tiffany is still counting all of that change! We recommend going to the bank and exchanging the change for cash, or depositing the change so that you can write a check.**

This particular fundraiser was quite successful last year, as it is a simple way to earn funds without selling bulky products or trying to organize a group carwash or bake sale. You'll be amazed at how much money can fit into a little tube. Last year, some girls were able to collect over \$100.00 to go towards their entry fees. ****Hint, grandparents love to give \$20s!**

Note: Participation is optional. Each girl is working towards her own individual fees. For example, if a girl only purchases 2 tubes, she may or may not receive the same benefits of someone who purchases 10 tubes. She certainly will get more back than someone who purchases 0 tubes.
